Qualifications

Please describe your relevant analytical skills.

After four years of training, at RPI, on how to dissect, review the elements of a problem and develop a solution, I was hired by IBM (after 2 years in service).

My first assignment at IBM was a System Test Engineer. The systems had a CPU, Storage units, card readers, printers and other devices that were ordered by the Customer. We would run diagnostic programs, these would detect errors. It was my job to analysis it, identify the root cause and propose fixes.

As a manager, I had to continually analyze the capacity and cost to make sure we were operating efficiently and in a cost effective manner. I would develop and implement solutions, to improve performance and reduce cost.

One example was the, Custom Module Program, this resulted in a \$ 20 million savings. IBM recognized my achievement, by awarding me an Outstanding Contribution Award.

Please describe your ability to be impartial.

I was employed by IBM for 38 years. 36 of the 38 years were in various management or Program management positions.

During this period I was continuing interacting with a number of people with many different skills, that ranged from manufacturing assembly, system test technicians, line support engineers and Senior process Engineers. These team members were of many races and nationality. Sometimes from different countries.

My philosophy has always been, to treat each person as an Individual and with Respect.

This has served me well, since I have had many positions in IBM and never had anyone accuse me of being Unfair or Biased.

Please describe your appreciation for the City of Austin's diverse demographics and geography.

Since early 1997 my wife and I have been volunteering at Seton Northwest Hospital. Most of our work was at the Admitting Desk. This is where, we greet patients who have an appointment, and make sure they get to the right place, on time.

These patients may be scheduled, for a blood test, EKG, pre-surgery review and test, or surgery. Sometimes they are at the wrong Hospital. In this case we would call the other Hospital to verify the appointment.

It is this experience, dealing with people from all walks of life, Race, Nationalities, speaking different languages, that I have come to appreciate the diversity of Austin and Central Texas.

Please provide any other information you wish to be considered during the selection of the most qualified applicants for the Commission.

My wife and I, with another family, opened, managed and sold (at a profit) a Travel agency which employed 10 people at it's peak. (1986 to 1996)

Volunteer at Age Computer Lab (formerly known as Austin Computer learning Center) since it's beginning. The purpose of this lab is to teach Seniors, how to use Computers, which may enrich their life.

Chairman of Dutchess County, New York, Heart Chapter for 2 years.
